

MD.Sazzadul Islam

About Me

I am a motivated Computer Science student with a strong interest in Data Analysis, Artificial Intelligence, and Automation. I enjoy applying my technical skills in challenging environments while continuously learning new technologies. My expertise includes tools like Power BI, Excel, n8n, and AI techniques such as Machine Learning and Generative AI. I have built real-world projects, including AI chatbots, data dashboards, and code analysis tools, demonstrating my problem-solving abilities. I aim to grow as a skilled professional and contribute to innovative, impactful projects in the tech industry.

Professional Experience

Survey wing : 01-05-2020 To 10-6-2020 [**Online**] (This is a question, answer site)

DIU Blood Donors Club : 2024 - 2025 (1 year) (Work At Organization Secretary)

DIU Blood Donors Club : 2025 - Present (November - Present) (Work At Adviser)

DIU Readers Club : 2023 - 2024 (7 month) (Work At Join Secretary)

Pabna Islamia Fazil Madrasha: Jan-2014 to Oct-2017 (Host at School Event)

Formal Education

(May 2018 To APR 2020) Ta'mirul Millat Kamil Madrasha, Tongi

(Jan 2022 To Dec 2025) Bachelor Degrees B.Sc in CSE Daffodil International University, Dhaka

Fazil Pass (2025) – Ta'mirul Millat Kamil Madrasha, Tongi

SKILLS

Data Analysis & Automation: Generative AI, automation(N8N), Microsoft Excel, Power BI, Machine Learning, Artificial Intelligence, PostgreSQL, MySQL, Basic(MS Word, Power Point).

Programming: JavaScript, HTML, CSS, C++

Tools: Git, Github, VS Code, ChatGPT

Soft Skills: Team Work, Time Management, Good Communication

Contest: Take-off programming contest 2022, Unlock The Algorithm Contest 2023

Paper

IEEE QPAIN 2026: Predicted Impact of Artificial Intelligence on Personalized Learning in Higher Education

IEEE QPAIN 2026: A Comparative Analysis of Deep Ensemble Learning for Enhanced Multi-Class Skin Disease Classification

ICSASD 2026 : 1st International Conference on Smart Agriculture and Sustainable Development

Mendeley Data: RoseLeafVision: A Comprehensive Multi-Class Image Dataset for Accurate Rose Leaf Disease Detection. ([Visit](#))

High Resolution Rose Growth Stage Image Dataset from Golap Gram, Savar, Bangladesh for Machine Learning and Precision Agriculture ([Visit](#))

PROJECTS

Mobile Sales Dashboard: Power BI project a Mobile Sales Dashboard designed to analyze and visualize mobile sales performance in a clear and interactive way.

Visit Github: [Visit](#)

Features: Total Sales by City (Map Visualization) Total Quantity by Month (Trend Analysis) Total Sales by Mobile Model Brand-wise Performance (Sales, Quantity, Transactions) Transactions by Payment Method (Cash, Card, BKash, Nagad, Rocket) Customer Ratings Distribution Sales by Day Name Monthly Slicer for Dynamic Filtering.

Sales dashboard: Designed a dynamic sales dashboard in Microsoft Excel to visualize employee performance and target achievement across regions.

Visit Github : [Visit](#)

Features: Dynamic KPIs (Total Sales, Profit, Quantity), Interactive Charts and Graphs, Slicers for filtering data, Monthly & Category-wise Analysis , Clean and professional layout.

Medical-Chatbot: AI-powered Medical Chatbot built with LangChain and RAG, capable of answering healthcare-related queries using custom knowledge sources and intelligent conversational responses.

Visit Github : [Visit](#)

Source Code Analysis: AI-powered Source Code Analysis tool that leverages modern LLMs to understand, analyze, and explain code repositories, enabling intelligent insights, debugging support, and automated code comprehension.

Visit Github : [Visit](#)

Chat Agent: Build an AI Chat Agent with memory and tools using n8n. This tutorial shows how to connect OpenAI, Wikipedia, and Calculator to create a smart Chatbot.

Video Link : [Watch now](#)

This AI agent can: Respond to chat messages automatically. Remember previous conversations using memory. Fetch information from Wikipedia. Perform calculations using a built-in calculator. Use OpenAI Chat Model for intelligent responses.

N8N All Project Link: [Visit](#)
